Choosing KOBBE as your front door supplier means you're opting for unmatched quality and craftsmanship. KOBBE front doors stand as a hallmark of resilience, reflecting our commitment to advanced manufacturing processes and the use of superior materials from renowned sources. Your decision is a testament to prioritizing excellence and innovation in enhancing your home's aesthetic and functionality.

Each KOBBE door is a testament to distinctiveness and eco-friendly design. Embracing environmental responsibility, we utilize aluminum profiles comprised of 75% recycled content and ensure the recycling of production remnants. This strategy underscores our commitment to reducing our ecological footprint without compromising the unparalleled quality and individuality of our offerings.

ELEGANCE
INNOVATION

KOBBE goes beyond being merely a door, it represents an unparalleled blend of insulation performance and energy conservation. This choice guarantees your home is not only visually striking but also excels in retaining warmth and maximizing energy efficiency. With KOBBE, you're choosing a synthesis of elegance, sustainability, and lasting craftsmanship.

KOBBE aluminum front doors redefine security, meticulously crafted with safety glass and robust fittings to ensure they conform to the RC2 security rating. This commitment to protection means our doors are designed not just for aesthetic appeal but with a paramount focus on safeguarding your home against unauthorized entry, offering peace of mind and reliability.

K O B B E

MODERN DESIGN & AESTHETIC APPEARANCE

Immerse yourself in the captivating realm of KOBBE, where the innovation of modern aluminum doors is both crafted for and inspired by discerning customers. Welcome to a world where elegance meets functionality.

KOBBE front doors are crafted with meticulous precision, where attention to every single detail is paramount!

The cutting-edge technologies employed in crafting KOBBE front doors seamlessly integrate with modern smart home systems, ensuring perfect harmony and enhanced functionality.

KOBBE front doors present a contemporary design, complemented by an extensive palette of colours and a diverse array of features, tailored to meet various aesthetic and functional preferences.

Each configuration bestows our front door with an aesthetic and timeless design.

WHY SHOULD YOU CHOOSE KOBBE?

DURABILITY / HIGH WEATHER RESISTANCE

ENERGY EFFICIENCY / LOW THERMAL TRANSMITTANCE

SAFETY / ADVANCED BURGLAR PROTECTION SYSTEMS

CONTEMPORARY AND TIMELESS DESIGN

Bespoke aluminium doors

Coated in any RAL colour

RC2 security rating for enhanced protection

Design your own front door (applies to the Alu Design collection)

ALU DESIGN | ALU XGLASS | ALU QUARTZ | ALU WOOD | PIVOT

Collection Alu Design

The ALU DESIGN line of entrance doors uniquely characterizes your home's exterior and interior, reflecting its distinctive individuality.

The ALU DESIGN collection offers the opportunity to infuse your home with an original, contemporary, and distinctive style.

An impeccable blend of elegance, style, security, and longevity.

Each KOBBE front door model is customizable to comply with the RC2 security rating standard.

An extensive array of design and finishing choices.

A broad spectrum of colours

Ability to customize aluminum milling

A diverse array of glass types

The ALU DESIGN doors stand out with their versatile millings, glass choices, and stainless steel accents. The customisation possibilities further include a wide selection of colours, allowing you to pick any preferred hue from the RAL colour chart.

This collection offers the freedom to creatively tailor your front door to match your personal preferences.

KB 280

Aesthetic customization

Combine any two colors and design the door that enhances your most extraordinary interiors.

KB 400

Excellent lighting

This design combines aesthetics and functionality. Large glass surfaces provide excellent interior lighting.

KB 500

Collection Pivot

The Pivot collection is expertly crafted for clients seeking to imbue their homes with a touch of modern elegance.

Featuring an advanced opening mechanism, this series enables the crafting of expansive doors that redefine spatial boundaries. Drawing on the diverse aesthetics of the Alu Design, Alu Xglass, Alu Quartz, and Alu Wood collections, Pivot offers boundless creative potential, allowing for the design of statement doors that enhance the unique character of any home.

Engineered with a revolutionary pivot axis shift, our doors can achieve dimensions of up to 1500mm in width and 3000mm in height. Moreover, the addition of side and top lights presents an opportunity to forge entranceways that are not just doorways, but grand statements of modern architectural beauty.

Contemporary architectural elegance

Dimensions of up to 1500mm in width and 3000mm in height

Featuring an advanced opening mechanism

Pivot offers boundless creative potential

CONSTRUCTION OF THE KOBBE DOOR

- 1 High-quality waterproof aluminium sheet with a thickness of 3mm EN AW1050 from the outside
- 2 Infill: A cutting-edge 70 mm deep XPS panel that offers exceptional thermal insulation and robust durability
- 3 High-quality aluminium sheet with a thickness of 2 mm EN AW1050 from the inside
- 4 EPDM gaskets designed to withstand a variety of weather conditions, including extreme temperatures, ageing, UV exposure, and moisture.
- 5 Advanced multi-chamber thermal insulation guarantees superior thermal efficiency, effectively minimizing the thermal bridging effect.
- 6 Warm 14 mm flat threshold with thermal break, improves comfort and safety.
- 7 Swing door seal that insulates both thermally and acoustically. - The thermal break minimises the escape of heat from the house and thus maintains the correct temperature inside the building.
- 8 Safety glass, 3 panes 64mm Ug - 0.5 W/m2K, black spacers.
- 9 Safety glass, 4-pane package 84mm Ug - 0.5 W/m2K, black spacers.

Pull handles with Custom Inlays

NEW

This collection showcases our distinctive push handles, available with coatings in any shade from our slate or wood color ranges (refer to the Alu Quartz and Alu Wood color palettes). For our Alu XGlass series, we provide an option of black glass. Additionally, these handles are offered with a choice of a stainless steel or black finish, allowing for further customization to suit your style.

Locks GU-SECURY

G.U-SECURY Automatic
Automatic multi-point locking system: Simply close the door to activate the locking mechanism automatically, engaging a 20 mm throw. This system includes two latch bolts that lock instantly and are designed to resist being forced back.

G.U-SECURY Automatic-DR
The Automatic Double-Bolt Lock enhances security while ensuring ease of operation for exterior doors. This advanced multi-point locking system seamlessly combines automatic latch bolts with locking hooks that engage simultaneously and automatically.

G.U-SECURY Automatic 6
Six automatic locking bolts for increased burglary protection.

G.U-SECURY Automatic TE
This system allows for the temporary manual disengagement of the automatic lock, enabling the door to be opened from the outside without a key.

G.U-SECURY MR
Multi-point locking system featuring two robust bolts that secure the door from top to bottom. Each bolt is fortified with a hardened steel insert, rendering it impervious to sawing.

G.U-SECURY DR
The GU-SECURY DR multi-point locking system is a key-operated mechanism that integrates the benefits of hook and solid bolt designs into a dual-bolt configuration. G.U locking hooks are reinforced with a hardened steel insert, ensuring they are resistant to sawing.
